# MyQ

Education

It's never been easier for teachers and students to scan, process, and deliver documents with MyQ one-click operations

- **REDUCE PAPER AND TONER WASTE WITH EASY, ONE-CLICK SCAN TO EMAIL, CUD, AND NETWORK FOLDERS**

- **SAVE TEACHERS TIME WITH EASY, ONE-CLICK SCAN AND DISTRIBUTION OPERATIONS**

- **EMPOWER STUDENTS WITH PERSONALIZED, EASY-TO-USE INTERFACES THAT LEAD TO CLASSROOM SUCCESS**

- **CONTROL COSTS ON CONSUMABLES AND ALLOCATE RIGHTS, RULES, AND QUOTAS FOR STAFF, DEPARTMENTS, AND STUDENTS**

Really go "paperless"

- Distribute files to students directly at the multifunctional device (MFD)
- Organize classes by subject or grade-level and eliminate confusion
- Create a digital portfolio that follows the students over their academic careers
- Reduce waste and watch your recycle bins disappear with advanced scanning options
- Increase security and student/teacher confidentiality with pull-print access

Organize your documents with one-click operations

Teachers can scan documents and organize their files directly at the printer. Organize files in your network folder or in your favorite cloud storage platform. Scan documents at the multifunctional device and organize them without having to return to your PC makes your job easier and you more efficient.

Scan and send documents to students with one click

Log in to any printer/scanner using a secured ID card, PIN, or mobile device and use your personalized user interface to send files directly from the printer. You can send scanned files to students via email or deliver documents directly to student network folders and eliminate unnecessary printing.

Create student portfolios and reduce waste

You can set rules, rights, and quotas and give every student the ability to track their own growth and establish individual portfolios. Students can scan and send projects and essays directly to teachers via email or the cloud and cut back on paper and toner usage.
